Evacuation Planning and Stakeholder Engagement for a Remote Coastal Canadian Indigenous Community

The small community of Wuikinuxv has ties with stakeholder groups that extend well beyond the bounds of the surrounding inlet. A list of core steering group and subject matter expert groups is outlined. Each group's influence, interest and relationships are represented visually. Defining the outlines of each group as precisely as possible creates a strong foundation for engagement.

Presentation Theme: Evacuation Planning.

Collaborators, Advisor(s) and Department(s) that assisted with this research: None.
