

**Angel Perez**

Digital Accessibility Coordinator, Office of Access and Functional Needs  
California Governor's Office of Emergency Services

Angel Perez is the Digital Accessibility Coordinator in the Office of Access and Functional Needs at the California Governor's Office of Emergency Services (Cal OES). Angel plays a central role in the development and delivery of Cal OES' employee training on the laws and techniques that enable effective communication within electronic information. Angel teaches courses on such topics as basic steps to create accessible documents and forms in Microsoft Word, Excel, and PDF.

Before joining the Office of Access and Functional Needs, Angel worked in the Grants Management Unit at Cal OES remediating documents and optimizing their website for digital accessibility. Prior to that, Angel worked for the Department of Public Health where he provided digital accessibility coordination and education.

Angel is a graduate from California State University of Sacramento.
