

IAEM Members and Specifically Tennessee Members,

I am offering my candidacy for the position identified as the IAEM Tennessee State Liaison for region IV.

I am currently the Emergency Management Association of Tennessee (EMAT) Liaison to IAEM and have been in that position for several years. I was nominated by the EMAT board and have been a member of the IAEM State Association caucus as a result of that nomination. Since then, I have become the IAEM Vice Chair of that caucus.

In the effort to facilitate relationships between state associations the chair of the caucus and myself have been working to share state association information and governmental interactions. To that effort, I recently attended the Alabama State Association conference, again in an effort to build relationships and share. We intend to continue this effort with all surrounding states touching Tennessee.

I believe, based on my existing roles, I am a good choice to represent EMAT and Tennessee for the IAEM Region IV position.

Respectfully

Dave Nock
