The Honorable Brett Guthrie
Chairman
House Committee on Energy and Commerce
United States House of Representatives
Washington, DC 20515

The Honorable Frank Pallone
Ranking Member
House Committee on Energy and Commerce
United States House of Representatives
Washington, DC 20515

Dear Chairman Guthrie and Ranking Member Pallone:

On behalf of the national organizations representing the nation's fire, emergency medical services, law enforcement, public safety communications, and emergency managers and the state and local government agencies that support them, we thank you for your leadership in developing this legislation to preserve the federal First Responder Network Authority (FirstNet). Every day, FirstNet provides mission-critical communications so that local public safety officers can protect and provide lifesaving assistance to their citizens. We stand together in support of your amendment in the nature of a substitute to H.R. 7386, the First Responder Network Authority Reauthorization Act of 2026 and urge members of the committee to support this network.

We thank you for your efforts to address the needs of the public safety officers that use FirstNet on a daily basis. In order to prevent the termination of FirstNet next February, the amendment would extend the life of the program to September 30, 2037. By increasing the representation of active public safety professionals on the FirstNet Board, the amendment would ensure that the FirstNet network that was built for public safety will continue to meet public safety's needs. The substitute amendment would reinforce the FirstNet Authority's ability to deploy emergency

response capabilities and resources to emergencies and disasters; set strategic priorities for the network; develop an annual budget and outline reinvestment decisions; and manage the device and application ecosystem within the FirstNet network in a timely manner without bureaucratic interference.

The FirstNet network continues to demonstrate its effectiveness daily during both national disasters and daily calls for fire, EMS, or law enforcement assistance. It is important that this national resource is not allowed to expire. We look forward to working with you to pass this legislation in the House of Representatives.

Sincerely,
