Major FY 2018 Highlights

- The *Department of Homeland Security Appropriations Act, 2019* provides over \$1.7 billion in preparedness grant funding.
- Funding for SHSP increased by \$13 million to \$415 million.
- Funding for OPSG increased by \$10 million to \$590 million.
- Funding for Operation Stonegarden increased from \$85 million to \$90 million.
- Due to the funding increases for SHSP, UASI, and OPSG, the statutory minimum allocations under the State Homeland Security Program (SHSP) are:
 - \$4,077,500 (+\$325,500 compared to FY 2018) for the 50 states, D.C. and Puerto Rico.
 - \$932,000 (+\$22,000 compared to FY 2018) for the four other territories.
- Thirty-one (31) high-risk urban areas will be funded under the Urban Area Security Initiative for FY 2019 based on Congressional direction that DHS limit funding to jurisdictions that comprise 85% of the total nationwide risk of terrorism. 32 urban areas were funded in FY 2018.
- Key program changes (see individual program slides)

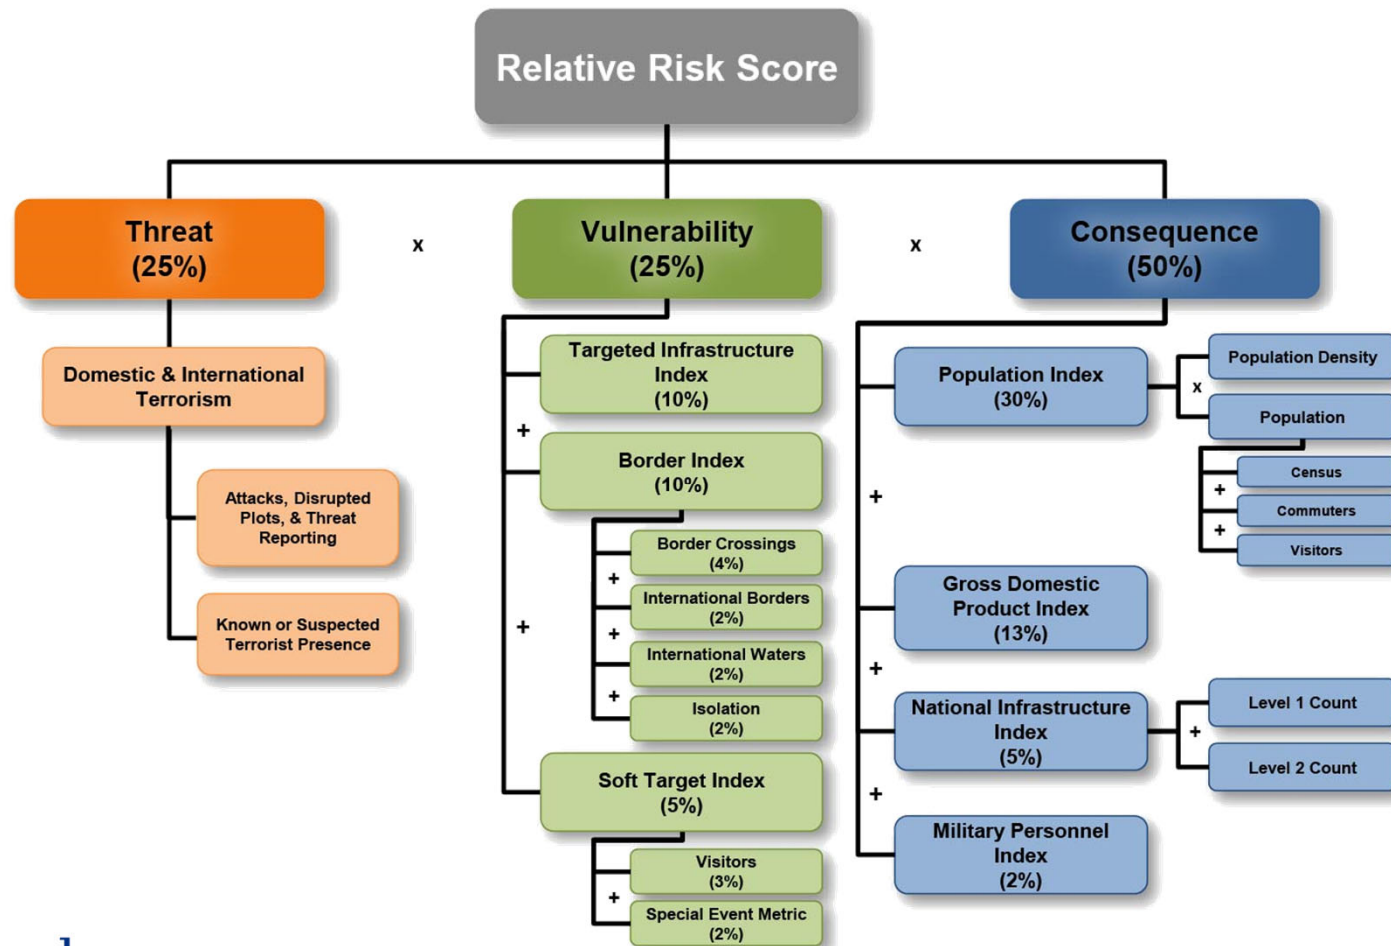

Projected FY 2019 Grant Timeline

FY 2019 Risk Methodology

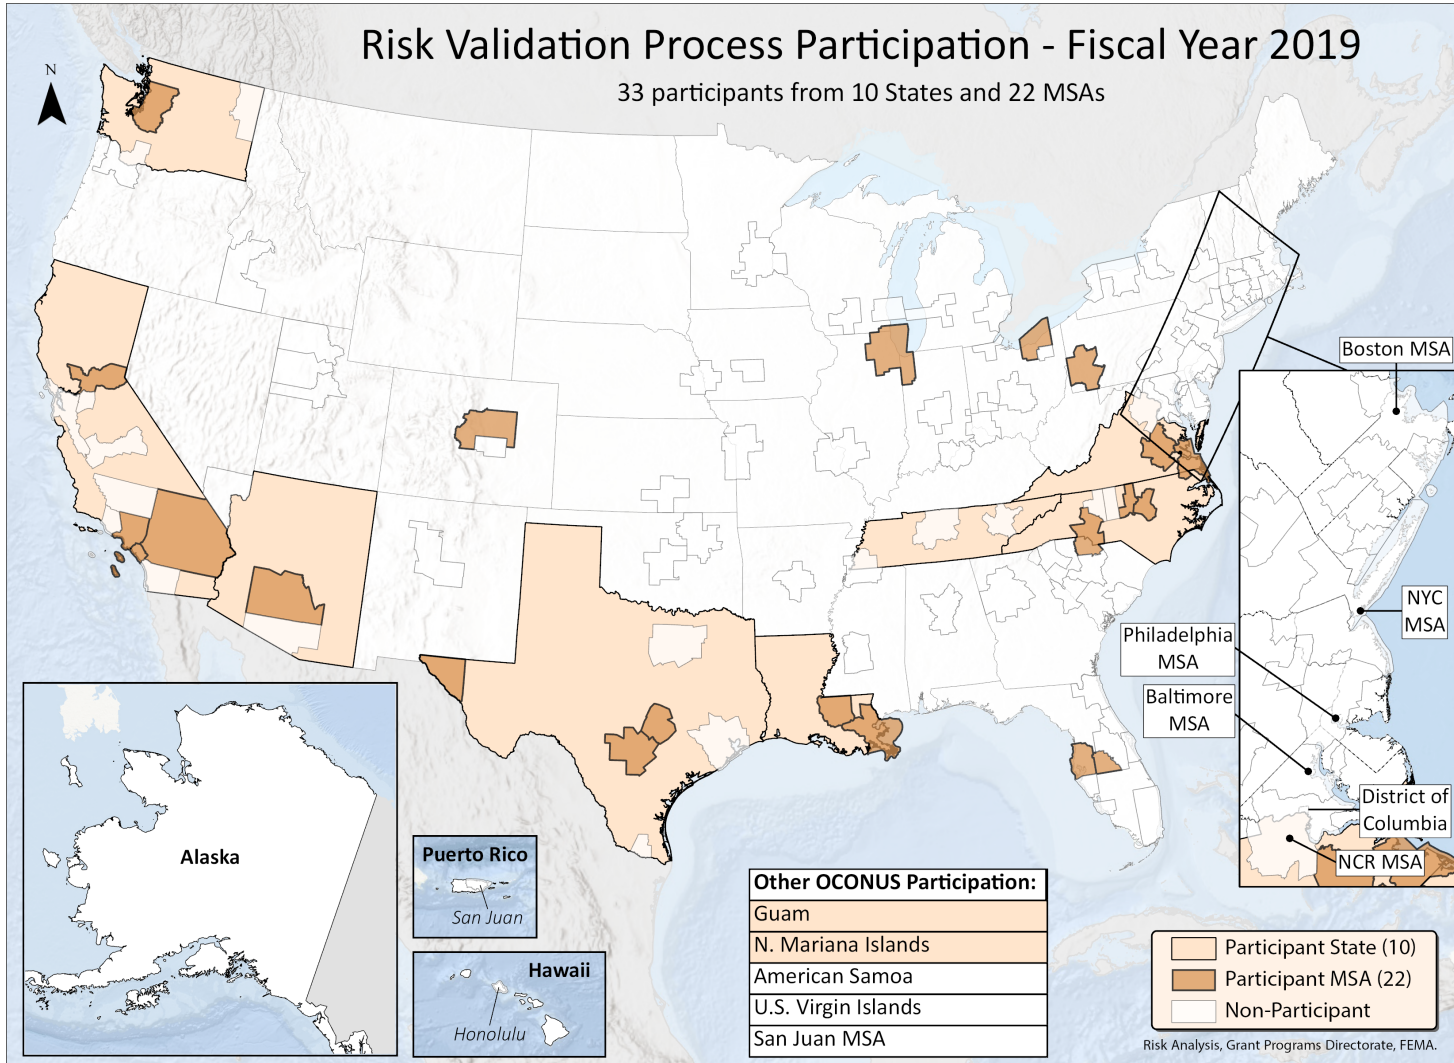

- FEMA uses a comprehensive risk methodology to determine the eligibility and target allocations for SHSP and UASI. It focuses on three key elements:
 - *Threat*: Likelihood of an attack being attempted by an adversary;
 - *Vulnerability*: Likelihood that an attack is successful; and
 - *Consequence*: Effect of an event, incident, or occurrence
- The risk validation process for SHSP and UASI, which is required by law, was conducted for FY 2019 awards in February-March
 - FEMA sent preliminary risk profiles to all 56 states and territories, and the 100 most populous metropolitan statistical areas.
 - FEMA conducted three webinars to provide training on the risk validation process.
- FEMA uses a similar methodology to determine risk associated with the Port Security, Transit Security, and Operation Stonegarden programs
