

## IAEM REPOSITORY FACT SHEET RELEASE

---

The International Association of Emergency Managers (IAEM) has initiated an effort to review select research and make it easily available to Emergency Management practitioners. Your research has been selected. A basic "Fact Sheet" highlighting this research to practice effort has been created to focus on key elements which may be particularly pertinent to the Emergency Management community.

The Fact Sheet will be published on the IAEM Resource page and open to all members of the Emergency Management community. Prior to it being published, we wanted to share the Fact Sheet with you. Should you have any corrections you wish to have made, please notify the Fact Sheet Author by completing the form below and returning it. If you are comfortable with the Fact Sheet, no reply would indicate acceptance of the Fact Sheet.

Thank you for selecting my work for your working group.

You are absolutely on target applying these concepts to the emergency management community. The fact sheet is put together well and I cannot note any necessary changes or additions.

If you have any questions, please feel free to reach out to me after May 30th.

Frank Forman
