Why EMvision Talks?

Can you pinpoint a pivotal moment in your life when something changed?

When you experienced or discovered something that fundamentally shifted your perspective?

Inspired you to do things differently?

Prompted you to take action, to make a change?

We want to hear from you! Whether it was an incredible success, a major failure, or a personal moment of truth -- we want to hear about it!

We want your story!

What Are EMvision Talks?

- IAEM’s EMvision Talks are modeled on the well-known TED™ Talk format.

- The Talks provide a forum for people to share a personal connection to an idea, experience, or passion related to emergency management, leadership, health & wellness, inclusion, communication, community engagement, or other related topics.

- The Talks should grab the audience’s attention, inspire, inform, compel to action, or foster awareness and a sense of urgency.

- Talks are limited to 7-minutes and will be on the plenary stage on Tuesday, November 15, 2022, at the IAEM 70th Annual Conference & EMEX in Savannah, Georgia.

- The Talks are a live presentation given by the selected speakers.
  - We use the submitted abstract and video of the Talk described below for selection and editing purposes only.

- Please check out the EMvision Talks from past IAEM Annual Conferences!

Appendix 1 - Abstract Examples

Example of Strong Abstract

The number of dual income families with children is increasing. Over 61 percent of children five and under spend 33 hours a week in childcare. National childcare preparedness requirements do not exist, and childcare is not prepared for disaster or disaster recovery, and has few incentives to be prepared. Different agencies in different states set the childcare preparedness or safety 'standards' and are not well integrated with emergency management. The current 'checking the box' mentality of compliance isn't good enough. Childcare needs to be 'ready' through action and practice, and our children need to be taught how to handle the unexpected. Otherwise, we miss opportunities to enable them and change the future. Childcare is critical to the American way of life. If the children are not safely taken care of, parents cannot go to work. After a disaster, if the parents don't go back to work, the community doesn't recover.

Example of Poor Abstract

I have never presented before, but I have attended IAEM for many years and have seen many presentations on effective emergency management. I thought it would be interesting to compare the different theories on emergency management. I would also like to talk about how I have created my own emergency management plan based on ideas from others. I think the audience would appeal to many people.
