BOOTH #131www.veoci.com**Veoci**Lucien Harlow-Dion
203-782-5944info@veoci.com

Veoci is the Emergency Management system for the 21st century. Built for crisis management across multiple organizations, departments, teams, and their partners, Veoci offers an all-in-one, cloud-based solution that facilitates seamless operations and increased efficiency. When an emergency hits, Veoci gives you easy-to-use tools and the flexibility to manage your response from the initial plans, to the start of preparation, to the after-action review.

With Veoci, emergency managers and the entire responder community now have the ability to create and launch predictive response plans for any type of incident, rapidly (re)direct teams and resources to where they are most needed, and employ tools that help bring order to chaotic situations.

BOOTH #305www.xgtechnology.com**XG Technology Inc.**Daniel Carpini
941-953-9035daniel.carpini@xgtechnology.com

xG Technology's xMax is an emergency response wireless solution that overcomes the costs and limitations of traditional wireless options. Using next-generation smart radio technology, xMax delivers high performance, intelligent, reliable, affordable voice, video and broadband data. xMax enables real-time situational awareness and secure two-way communications. It fills a critical need of emergency management organizations by allowing them to track the movement of people and equipment, and to see and communicate with response teams.
