

Comparisons of State and IAEM-USA Certifications within Region 4

The Online CEM/AEM Application Portal is now active for initial CEM/AEM credential submissions, AEM to CEM upgrade applications, Lifetime applications, and those recertifying. CEM/AEM candidates submitting **first-time applications may submit through the online system or by using the paper application until Aug. 15, 2014. After Aug. 15, all applications must be submitted through the online system.**

Candidates should note that starting July 1, 2014, applications must meet the new requirements included in the revised version of the CEM/AEM Application. You can find the list of changes, revised application, helpful resources, and other information at <http://www.iaem.com/page.cfm?p=certification>. Also, keep in mind that many of our members in Region 4 are certified and most willing to offer services to you as your mentor. Please, reach out to one of the Region 4 officers for additional information.

The following documents reflect comparisons of requirements for various emergency management certifications from each state within Region 4 and the CEM/AEM. They should prove especially beneficial to members who are working toward achieving multiple certifications at once. Keep in mind that these are non-official and for your convenience only.

- [Alabama State Certifications](#)
- [Florida State Certifications](#)
- [Georgia State Certifications](#)
- [Kentucky State Certifications](#)
- [Mississippi State Certifications](#)
- [North Carolina State Certifications](#)
- [South Carolina State Certifications](#)
- [Tennessee State Certifications](#)

If you have questions about the documents, please contact Lanita Lloyd at lanitalloyd@gmail.com. You may also reach out to Kate McClimans, the CEM Administrator at kmcclimans@asmii.net with questions about the CEM/AEM process.
